June 29th, 1959COCOM Document No. 3591COORDINATING COMMITTEEMEMORANDUM BY THE CANADIAN DELEGATIONEXPORT OF COBALT OXIDE TO POLAND

The Canadian authorities have received an application to export to Poland 5,000 kilos Cobalt Oxide, covered by International List Item 1720. This material is required by CIECH, Warsaw. The Cobalt Oxide is to be supplied through a British company and it is assumed by the Canadian authorities that the proposed export represents the material for which the United Kingdom submitted an application to the Committee (COCOM 3501) and which was authorized by the Committee (COCOM 3527). The Canadian authorities wish to license the export of this material under the Polish Exceptions Procedure. The usual assurances against re-export will be obtained.

The Canadian Belegation would be grateful to have the views of Member Governments at an early date.
